### The Best Part of Me

The best part of me is my heart. My heart is part of my body. My heart is pinkish-reddish and that is my favorite color. It has veins attached to it. I can feel my heart pumping with my hands. My heart is soft. It moves. It pumps every second. My heart has skin on top of it. It is slimy and squishy. It has tubes close to it. There is only one heart inside of my body. My heart is in the center of my chest.

My heart is the best part of me because I can feel it pump. It's part of what makes me special. My heart tells me how to act. It keeps me alive. My heart helps me to stay healthy. It can pump fast and slow. It helps me feel. My heart helps me to love my family.
